Summary

I am currently seeking a **postdoctoral/research fellow** position to further my research career. My **research interests** focus on comprehensive care, implementation science, community engagement, and quality improvement in health services.

I am a dedicated mixed-methods researcher with expertise in **both quantitative and qualitative research** in health services research. I have submitted my PhD thesis, currently under review since April 2025, at the Centre for Health Services Research, The University of Queensland, Australia. I was awarded **PhD Student of the Year** in 2024 and have been offered an **honorary fellow** position at **The University of Queensland** from June 2025 to May 2028. I also hold a Master of Science in Health Sciences from the University of Northern British Columbia, Canada and a Bachelor of Medicine in Nursing from Jilin University, China.

With five years of experience as a research assistant, I have developed strong skills in **quantitative, qualitative, and mixed methods research**, including survey design, regression modelling, data visualization, interviews, focus groups, thematic analysis, co-design methods. I have experience analyzing large datasets, electronic health records, survey data, and interview data using R, SAS, SPSS, and NVivo. In total, I have authored **17 journal publications** (12 as first author), given **over 20 conference presentations**, and contributed to studies informing healthcare policy and practice.

I am **highly self-motivated**, enthusiastic to take initiative, and thrives in multidisciplinary research environments. My **experience** includes project management, conducting systematic and integrative reviews, developing study protocols, leading ethics applications, leading or assisting with grant applications, engaging in research dissemination through high-impact publications and policy briefs, and mentoring and supervision of research assistants and graduate students. Passionate about translating research into practice, I am seeking a postdoctoral/research fellow position to further contribute to advancing health services research.

Education

Doctor of Philosophy in Health Services Research, University of Queensland, Australia *Apr. 2021 - Present*
●Cumulative Curriculum GPA 4.3/4.3 (Maternity leave *Sept. 2024-Dec. 2024*)

Master of Science in Health Sciences, University of Northern British Columbia, Canada *Sept. 2017 - May 2019*
●Cumulative Curriculum GPA 4.0/4.3

Bachelor of Medicine in Nursing (Major), Jilin University, China *Sept. 2012 - Jun. 2017*
●Cumulative Curriculum GPA 4.1/4.3 Rank 2/94

Bachelor of Art in English Translating (Minor), Jilin University, China *Sept. 2014 - Jun. 2017*

Professional affiliations and memberships

interRAI-China Academic Committee	member	<i>Dec. 2021 – present</i>
Emerging Researchers in Ageing	member	<i>Aug. 2022 – present</i>
Frailty Nexus	member	<i>Feb. 2024 – present</i>
Australian Association of Gerontology	member	<i>Jul. 2023 – Present</i>

Research Skills-----

- **Qualitative, quantitative, and mixed methods** study design, data collection and analysis
- Proficient in the use of **analytical software** (R, SAS, SPSS, NVivo)
- Experienced in analyzing **large-scale data** and working with **electronic health records**
- Experienced in conducting and publishing **systematic reviews**
- Experienced in **survey development and distribution**
- Experienced in conducting **interviews and focus groups**
- Experienced in **grant and ethics applications**
- **Supervision, mentoring and training** of research assistants
- **Leadership and co-authorship of research articles**, grant applications, and **major reports** for government, stakeholders and funding bodies

Work Experiences -----

Senior Research Assistant/ Project Officer

Centre for Health Sciences Research, University of Queensland

Aug. 2022 – Nov. 2024

Research Supervisors: Dr. Melinda Martin-Khan and Dr. Daniel Bailey

- Conducted a systematic review on the recognition of cognitive impairment in hospitals, managing the literature review process and drafting the manuscript
- Managed the development and implementation of an interview study, including drafting the study protocol, preparing the ethics application, coordinating data collection and analysis, and leading manuscript writing
- Managed the editorial and submission process for three publications on quality indicators, a randomized controlled trial on telehealth in long-term care setting, and telehealth in primary care, including submission, revisions, and correspondence with journals

Research Manager and Editor in Training

Chinese Journal of Modern Nursing

Sept. 2020 – Apr. 2021

- Managed research projects for the Nursing Research Fund of the Chinese Medical Association
- Provided consultant services, such as project application, research methods, and research achievements dissemination
- Proofread, edited and rewrote materials for the application for the journal indexing in Scopus
- Refined the manuscript consideration process, including peer review and decision-making
- Contributed to the strategic planning of the Chinese Journal of Modern Nursing
- Edited and proofread course planning materials and manuscripts

Assistant Research Fellow

ZhongWei Institute of Nursing Information Research

May. 2020 – Sept. 2020

- Managed the WeChat official account, including reviewing and editing articles submitted to the official account
- Participated in the development of Nursing Care Knowledge Base, including literature search and data extraction
- Engaged in live broadcasts of online conferences, including broadcasting, poster design and video editing
- Led the development of the online course "Nursing Research Paper Writing"

Research Assistant

School of Nursing, University of Northern British Columbia

Feb. 2018 – Dec. 2019

Research Supervisor: A/Prof. Shannon Freeman

- Assisted in the development of the research topics and study designs of several projects
- Proofread and edited several manuscripts and grant applications, recommending revisions as needed
- Conducted systematic literature searches on topics such as aspiration pneumonia and end-of-life care, convalescent care, hidden and seldom-heard populations, and adult day program
- Performed literature searching, screening, and data extraction for a scoping review on improving accessibility for persons with disability in outdoor natural environments
- Performed data analyses, and drafted research proposals and manuscripts

Assistant to the President and Secretary

Western North-Western Region Canadian Association of Schools of Nursing (WNRCSN)

Dec. 2018 – Dec. 2019

- Responded to calls and emails, directing inquiries to the appropriate contacts as needed
- Managed schedules and grant applications; arranged and coordinated meetings; prepared meeting documents
- Drafted and distributed correspondence and reports; compiled and prepared data reports
- Maintained up-to-date contact information for members; updated and improved the WNRCSN website

Nursing Management Intern

Nursing Department Office, Fuwai Cardiovascular Hospital

Jul. 2019 – Aug. 2019

- Arranged and coordinated meetings, prepared meeting documents, and created a promotional video on quality care services
- Analyzed the patient satisfaction questionnaire, wrote a result report, created presentation slides, and revised the patient satisfaction questionnaire
- Drafted five new nursing management protocols, including Patient Diet Management Protocol, New Nurse Management Protocol, Nursing Risk Management Protocol, Nursing New Technology Management Guidelines, and Nursing Science and Technology Award Guidelines
- Prepared materials for the Management Base review and assessment, made Management Base presentation slides, welcomed review experts, and participated in the evaluation process
- Participated in the safety supervision of daily nursing work

Nursing Intern

First Bethune Hospital of Jilin University

Apr. 2016 - Mar. 2017

- Mentored one-on-one with registered nurses to gain hands-on nursing experience
- Assisted physicians and nurses with collection of physical and psychosocial data
- Assisted physicians and nurses with medical and surgical procedures
- Assisted patients with activities for daily living such as cleaning and meals
- Participated in the development and implementation of patient care plans and patient education

Mitacs Globalink Research Intern & Research Assistant

School of Nursing, University of Northern British Columbia

May 2016 - Aug. 2016

Research Supervisor: A/Prof. Shannon Freeman

- Classified more than 40,000 records related to clinical diagnoses for the interRAI Palliative Care Project
- Performed data analyses, wrote a report on the interRAI Contact Assessment Project and presented it in a teleconference
- Performed data analyses and drafted a manuscript for the interRAI Quality-of-Life project

Example Projects -----

Implementation Approach, Challenges and Facilitators, and Impacts of the Comprehensive Care Standard in Acute Care Hospitals in Australia

July 2021 – Present

Doctoral Thesis Project, Received Research Development Awards

- Designed and led the research project on the national implementation of comprehensive care in hospitals
- Performed two literature reviews, one on comprehensive care and the other on a national standard for comprehensive care
- Drafted the research proposals for three mixed-method studies and performed ethics applications
- Developed and conducted national surveys and interviews with care professionals, patients, and informal carers
- Performed statistical analysis of survey data and qualitative thematic analysis of interviews
- Drafted and submitted eight manuscripts to peer-reviewed journals

Recognition of Cognitive Impairment Status in Hospital – Current Approach

July 2022 – Present

Research Assistant, Part of evaluating Quality of Care (eQC) project, Funded by NHMRC grant

- Conducted an integrated review on the recognition of cognitive impairment in acute care hospitals
- Designed an interview study with care professionals to evaluate current practices
- Performed ethics application, collected the interview data, and conducted the data analysis
- Drafted and submitted two manuscripts for submission to scientific journals

Review of Tasmanian Health Literacy Action Plan

Dec 2023 – Aug 2024

Visiting Student at the School of Nursing, University of Tasmania, Funded by Tasmania Department of Health

- Performed a narrative review of global health literacy action plans
- Participated in the design of the protocol for the review of the action plan
- Performed survey data analysis to assess stakeholder and consumer perspectives on the action plan

Health Status of the Elder Residents in Long-Term Care Facilities in China

May 2021 – Jan. 2022

Visiting Student at the Department of Sociology, Tsinghua University

- Analyzed interRAI Long-Term Care Facility assessment data to evaluate the health status and care needs of older residents
- Drafted a manuscript for publication

An Examination of Persons Who Receive/Do Not Receive Hospice Care at End of Life in Long-term Care Facilities in Canada

Sept. 2017 - Dec. 2019

Master Thesis Project, Received UNBC Research Project Award

- Performed a systematic review of factors associated with hospice care utilization in long-term care facilities
- Designed and executed two studies using interRAI MDS 2.0 assessment data to examine hospice care utilization
- Drafted and submitted two manuscripts for submission to scientific journals

The Long-term Effect of Pain on Future Health Complaints in Nursing Homes

Nov. 2018 – Apr. 2019

INSPIRE Project & International Collaboration

- Developed and executed a statistical analysis plan to assess the impact of pain on health complaints in nursing homes
- Performed data cleaning, analysis, and visualization to support international research collaboration
- Co-authored a research report presented at an international conference.

Examining the Cause of Death of the Oldest Old Over the Last 40 Years in Canada

Feb. 2018 - Mar. 2019

Research Assistant, Received Canadian Research Data Centre Research Award

- Designed and conducted a retrospective data analysis of mortality trends in centenarians
- Drafted two findings reports contributing to ongoing gerontology research

Examining Quality of Life of Older Adults in Residential Care Facilities in Canada

May 2016 - Aug. 2016

International Exchange Program & Mitacs Globalink Research Intern

- Conducted statistical analyses to examine the quality of life of residents in residential care facility
- Drafted one findings report contributing to ongoing research in residential care facilities
- Co-authored a literature review on hospital-to-residential care transitions

Relationship Between Building a Professional Continuing Nursing Support Platform and Depression Among Patients with Breast Cancer

May 2015 - May 2017

National Undergraduate Training Program for Innovation, Received Excellent Project Completion Award

- Wrote components of the grant proposal, involved in data collection at three hospitals of Jilin City, performed the data analysis to explore the correlation between nursing support and mental health outcomes in breast cancer patients
- Participated in the design of a plan to create a professional continuing nursing platform for patients with breast cancer
- Drafted and submitted a literature review for publication and co-authored a literature review

Scholarships, Awards and Honours-----

I received a total of approximately SGD 375,000 in competitive academic scholarships and awards.

2021-2025 During PhD Studies

- PhD Student of the Year - Commendation (2024) *Centre University*
- Graduate School Scholarships – includes Research Training Program (2020, **\$280,000**)

2018-2019 Academic Year

- Graduate Entrance Scholarship (renewed for GPA above 4.0/4.3, **\$10,000**) *University*
- Graduate Entrance Research Award (renewed for GPA above 4.0/4.3, **\$5,000**) *University*
- Masters Tuition Scholarship (renewed for GPA above 4.0/4.3, **\$20,000**) *University*
- Health Sciences Graduate Scholarship (**\$800**) *University*

2017-2018 Academic Year

- Mitacs Globalink Graduate Fellowship (**\$15,000**) *International*
- Graduate Entrance Scholarship (**\$10,000**) *University*
- Graduate Entrance Research Award (**\$5,000**) *University*
- Masters Tuition Scholarship (**\$20,000**) *University*
- Health Sciences Graduate Scholarship (**\$800**) *University*

2016-2017 Academic Year

- First-Class Graduation Award (**¥ 2,000**) *University*
- Distinguished Student *University*
- Excellent Project Completion Award for National Undergraduate Training Program for Innovation (**¥ 5,000**) *University*
- Nomination Award of Top Ten Students of Jilin University (**¥ 2,000**) *University*

2015-2016 Academic Year

- National Motivational Scholarship (**¥ 5,000**) *National*
- Distinguished Student *University*
- Top Ten Students of Norman Bethune Medical Department (**¥ 5,000**) *University*
- Excellence Award in Nursing Clinical Skills Competition *School*

2014-2015 Academic Year

- National Scholarship (**¥ 8,000**) *National*
- Distinguished Student *University*
- The Best Academic Team Award in Medical Basic Knowledge Competition *University*
- Bronze Medal of National Internet+ Undergraduate Competition for Innovation *University*
- Research Project Award *School*

2013-2014 Academic Year

- National Scholarship (**¥ 8,000**) *National*

- Distinguished Student
- Excellence Award in Public Photography Competition
- Excellence Award in Poster Design Competition

Research Grants

I received a total of approximately SGD \$33,500 in competitive research grants and awards.

- Research Development Awards (2022, 2023, 2024, \$4,000)
- Community and Consumer Involvement Kickstart Grant (2023, \$500)
- Conference Travel Award (2019, \$2,000)
- Research Travel Award (2019, \$2,000)
- Canadian Institutes of Health Research Institute Community Support Travel Awards (2019, \$1,500)
- Research Project Award (2018, \$5,000)
- Fraser Institute's Travel Bursary (2018, \$500)
- Canadian Research Data Centre Research Grant (2018, \$10,000)
- Mitacs Globalink Research Internship Grant (2016, \$5,000)
- National Undergraduate Training Program for Innovation (2014, ¥10,000)
- Innovation Project of Norman Bethune Medical Faculty of Jilin University (2013, ¥5,000)
